

TRAINING EQUIPMENT

**ATEC CUSTOMER SERVICE
1.800.755.5100**

How you **Use** it, is how we **Name** it.

Our products are categorized by both **Class** and **Training Level**. Each product's name is developed to help you decide which product is best suited for your training needs, ultimately helping you maximize your training effectiveness.

Class			Level
M	Offensive Machine		3 Professional
R	Defensive Machine		2 Collegiate
T	Training Tee		1 Travel
N	Training Net		

Product Naming Examples:

M3 = an **Offensive Machine**, built for **Professional Level Training**.

N1 = a **Training Net**, built for **Travel Ball Level Training**.

NEW

M3™

CLASS: OFFENSIVE TRAINING MACHINE

LEVEL: PROFESSIONAL

M3 CLASS: OFFENSE DEFENSE

PROFESSIONAL

COLLEGIATE

TRAVEL

The All-New M3 offensive machine is built to train professional level ballplayers. It's industry leading 3-wheel design allows for hitters to have complete visibility of the ball throughout the entire pitch cycle, which improves their timing and increases their pitch recognition. With the addition of a third wheel; speed, accuracy, and spin are maximized due to the ball's increased surface contact with the wheels. The M3 is equipped to throw 105mph giving you the ability to train against Major League level fastballs, and right and left handed breaking pitches including curveballs, sliders, and splitters. Using only the speed control knobs, pitches can be easily dialed-in without making any physical adjustments to the machine, helping you improve the efficiency and effectiveness of your batting practice. Built for the MLB®, available now.

PRODUCT FEATURES

1. High Definition Ball Chute

- Players have a clear and uninterrupted view of the ball throughout the entire pitch cycle
- Hitters see when to stride and achieve a Live-Arm sense of timing for the most realistic repetitions

2. Quick-Pitch-Select

- Change quickly between Major League level fastballs and breaking balls using only the speed control dials

3. Concave Dual-Durometer Wheels

- Increases ball grip to maximize pitch accuracy of both fastballs and breaking balls
- Faster acceleration than standard wheels, increasing maximum pitch speed and minimizing recovery time

4. Durable Steel Frame

- Rugged frame and wide-base tripod absorb machine recoil ensuring maximum accuracy of every pitch

5. ABS Wheel Guards

- Protects operator from injury and protects the wheels from taking direct hits

Real Ball Compatibility

- Compatible for use with leather baseballs as well as dimpled and foam practice baseballs

M2™

CLASS: OFFENSIVE TRAINING MACHINE

LEVEL: COLLEGIATE

CLASS: OFFENSE DEFENSE

LEVEL: PROFESSIONAL COLLEGIATE TRAVEL

Introducing the next generation of the iconic **Casey Pro 3G**. The All-New M2 offensive machine is built to train collegiate level ball players. When it comes to accuracy, power and portability, no other 2-wheel training machine is better equipped than the M2. With the ability to pitch 90mph, the M2 can throw collegiate level fastballs, curveballs, and sliders to any spot in the strike zone. The All-New M2 is used and trusted by many nationally-ranked college programs to develop their elite players and take their hitting abilities to the next level.

The M1 is the most durable and best performing single-wheel training machine. It's built using the same technology, processes and materials as ATEC's other industry-leading machines. Similar to our M3 Professional Level Training Machine, the M1 is also equipped with a dual-durometer concave wheel, which is engineered to increase the wheel's grip on the ball which maximizes both pitch speed and accuracy. The M1 is portable and powerful, designed to be the workhorse on the field and in the batting cage. It's capable of throwing extremely accurate fastballs up to 70mph, as well as right-handed and left-handed curveballs, with any ball type; including real baseballs. The M1 makes it easier than ever to build hitters' confidence and eliminate weaknesses at the plate.

R3™

CLASS: DEFENSIVE TRAINING MACHINE

LEVEL: PROFESSIONAL

LEVEL	R3	CLASS	OFFENSE	DEFENSE
	PROFESSIONAL			
	COLLEGIATE			
	TRAVEL			

The machine that is used by Major League teams to develop and strengthen their player's defensive skills, the R3 (formerly the **Power Hammer**) throws 10 balls per minute, giving you the ability to execute hundreds of liners, grounders, pop-ups and fly balls in a single practice. With the training machine industry's lowest recovery time (6 seconds), the R3 is extremely efficient allowing for the maximum number of defensive repetitions. Incorporating either R-Series machine into your practice increases your efficiency and eliminates errant fungo hits. The R3 is built to perform every Major League level defensive drill; including vertical pop-ups to catchers and sending balls from home plate to the fence helping outfielders improve their skills playing balls at the warning track and off the wall.

R2™

CLASS: DEFENSIVE TRAINING MACHINE

LEVEL: COLLEGIATE

R2 CLASS OFFENSE DEFENSE

LEVEL PROFESSIONAL COLLEGIATE TRAVEL

The R2, formerly the **Rookie**, is built for collegiate level defensive training. It is designed to be a more compact and portable version of the professional level R3. Both R-Series machines have the unique ability to rotate and pivot freely while the machine is on and in use, allowing you to challenge multiple fielders, playing different positions, one after another. Just like the R3, the R2 also allows you to achieve the maximum number repetitions for any defensive drill – giving your players more quality repetitions than could possibly be achieved with a fungo bat.

TRAINING BALLS

HI.PER BALL LINE. Machines themselves are only one important part of what creates consistent and accurate ball flight. Balls are the second most important factor in your training machine's accuracy. Our **High Performance (Hi.Per)** ball line has numerous proprietary aerodynamic designs which maximize your training machine's accuracy. Each ball in the Hi.Per line is the most advanced ball in its class, helping you achieve the most accurate ball flight every time.

BATTING TEES

PROFESSIONAL TEE LINE. Precisely engineered to maximize positive contact zone feedback for hitters, while also combining durability and portability. Our professional tee line is designed and built with the elite player in mind, and is packed with industry leading features. T3 tees are staples in every Major League cage, and are used by elite players at every age.

T3™

STOCK NO.	PRODUCT	HEIGHT RANGE	MSRP
WTATT3000	T3*	23"-43"	\$99.95
WTATT3500	T3 Shorty	16"-22"	\$89.95

Technique: Our helically wrapped composite cone is designed to minimize resistance during contact, giving hitters optimal feedback on every swing. The unique shape and construction of our cone promotes both minimum resistance and maximum durability.

Transform: Smooth telescopic design allows the ball height to be quickly adjusted enabling the hitter to practice their mechanics on swing-paths throughout the strike zone.

Travel: The patented quick release system gives the hitter the ability to set up and disassemble the tees in seconds. With a quick turn of the T-screw, the stem and base can be easily separated, making travel extremely easy.

1 Year Limited Warranty

*Sold in Retail Packaging

HIGH-DURABILITY TUFFY TEES

Baseball and softball players use a batting tee every single day. It is one of the most important pieces of training equipment you can have and a staple in any great hitting program. Tuffy Tees come with a 5 year limited warranty, so this tee is built to take a beating, season after season. The weighted base design provides maximum stability while allowing the batter to move the tee anywhere in their swing range. Adjustable stem and insert are designed for all heights and areas of the strike zone.
