TECHNOLOGIES

3D Technology™ features position-specific patterns for ball glove pockets. Each glove is designed with input from the best defensive players in professional baseball.

ParaShock® Mizuno's exclusive palm pad absorbs the shock of repeated use providing outstanding protection and ideal comfort.

Power Close® makes it easier for younger players to close the glove and catch the ball. Makes catching easy!

PalmSoft™ incorporates padded pigskin in the palm of the glove for increased feel and comfort.

PowerLock™ closure provides the quickest and most secure fit available.

Butter Soft™ is a PU lining in the palm for durability, feel, and comfort.

QuikForm™ lacing system provides the ultimate means of tightening your laces to give the ball glove the perfect form.

Side Bar™ tapered design secures the hand in place for better glove control.

Heel flex™ Patent-pending technology provides a more flexible/forgiving heel for the ultimate in feel & performance.

SureFit™ Foam adds cushioning along the back of the fingers for a more customized fit.

V-Flex Notch™ is designed to help initiate easy closure.

TriPROtect™ technology offers three index finger position options for three levels of comfort, control, & protection.

Ultrasoft™ Premium US Steerhide is specifically tanned for the ultimate in softness and long lasting durability.

Moisture Management Technology — fabric technology that disperses perspiration away from the skin.

Hi-Low Lacing — maintains the integrity of a fully laced web while providing added flexibility for easier closure.

1. CHEST

Measure around the fullest part of the chest points. Keep the tape horizontal.

2. NATURAL WAIST

Measure the narrowest part. Typically the small of your back where your body bends side to side.

3. LOW WAIST

Measured lower than the Natural Waist. This is typically near the top of the hip bone. Men usually wear the pants here, lower on the body.

4. HIP

Measure the fullest part of the hips. Keep the tape horizontal.

5. INSEAM

Measure from the crotch to the bottom of the leg. This is for pant wear length.

Use a cloth measuring tape for sizing.

Body measurements are given in inches. If your body measurement is on the border between two sizes, order the smaller size for a tighter "athletic" fit or the larger size for a loose "relaxed" fit. *Size charts define measurements of the body and not the garment.

FOOTWEAR

TECHNOLOGIES

IC SOLE Innovative Comfort (IC). Stud configuration designed for High cushioning by utilizing U4icX technology with an improved slit heel groove. The "V cut" toe metal allows for a smoother weight shift.

U4icX The most responsive mid-sole technology which delivers luxurious cushioning and smoother ride.

IQ SOLE Innovative Quickness (IQ). Stud configuration designed to reinforce traction with arch support ribs to enhance smooth weight shift & acceleration. Flex groove designed for acceleration and improved torsion flexibility.

The leading footwear technology combines cushioning and stability, two distinctly different elements that are both inherently necessary in great footwear.

U4ic mid-sole delivers optimal shock attenuation, durability and a superior ride. Innovatively light, well cushioned, responsive and resilient.

Full length mid-sole — heel to toe cushioning for ultimate comfort.

Mizuno's unique spike positioning for enhanced comfort, traction, and stability for the sport of baseball.
