# 2014 RAWLINGS GOLD GLOVE AWARD® WINNERS

For more than 50 years, one of baseball's greatest honors, the Rawlings Gold Glove Award®, has been bestowed amongst the game's greatest defensive athletes. Legends like Brooks Robinson, Ozzie Smith and Johnny Bench have each earned their spot in this exclusive legion of winners. Today, a new class of greats has emerged; a group that makes the spectacular look routine. Rawlings is proud to recognize the superior skill, ability and determination required to be a Rawlings Gold Glove Award Winner.

## REDEFINED LEGENDARY PERFECTION

### CRAFTSMANSHIP

Meticulously cut, assembled and sewn, start to finish, by a single craftsman, all Rawlings Gold Gloves carry an individual serial number signifying the maker, the date created and the glove's production number.

### PERFORMANCE

At the heart of these hand-crafted masterpieces is Rawlings Opti-Core™ Technology which allows for added layers of pre-curved padding beneath the palm to greater absorb the impact at the moment of catch.

### LEGACY

Inspired by the greatest glovemen of all time – from legends like Willie Mays to modern stars such as Yadier Molina – the Rawlings Gold Glove Award® and the gold trim patch exemplify the most heralded defenders in the game.

### FEATURES

Flawless, European leather famous for its supple feel and durable finish combined with special features like hand-sewn welting and ultra-premium, luxury palm lining comfortably completes a fit and feel that can only be described as custom.

## HEART of the HIDE® DUAL CORE™

Heart of the Hide® Dual Core™ fielder's gloves are designed with patented position-specific break points in the inner palm lining providing an exceptional close and pocket shape based on pattern size and position. Additionally, these gloves undergo a special tanning process that results in a softer feel, allowing for less break-in time.

- Crafted from authentic Rawlings Pro Patterns
- Breakpoints cut into the inner palm lining allow for position-specific close and pocket shape

- Soft full-grain leather palm and fingerback linings provide a comfortable feel
- Heavy-duty, US-made leather laces add durability and strength

## PERFORMANCE FIT

Rawlings is giving new meaning to the phrase "fits like a glove"! Rawlings' 125+ years of experience with creating the most technologically advanced gloves in the industry combined with extensive research with athletes of all ages and abilities have determined that fit is the most important deciding factor when choosing the right glove. This key insight has yielded an exciting new development in glove design: Rawlings' Performance Fit™. Ideal for players with smaller hands that desire to wear an adult pattern but have outgrown the Pro Taper™ fit, Rawlings' Performance Fit provides a snugger, closer fit resulting in superior comfort, control and flexibility on the field. When searching for a glove that's tailor-made to their individual fit preference, athletes now have a new choice, Rawlings' Performance Fit!

The RCS series from Rawlings provides each athlete with a unique on-field look with a multitude of color options and pro patterns. Full-grain leather shells and laces add an additional layer of durability and strength while palm and index finger pads diminish ball impact in key areas. Designed for the athlete desiring a minimal break-in period, RCS gloves successfully combine quality materials with a game-ready feel.

- Full-grain leather shell for durability
- Customized look combines pro patterns with a variety of color options
- Strong durable leather lace for continued performance
- Palm and index finger pads diminish ball impact
- Game ready feel for a quick and effortless break-in

Every serious ball player needs a glove that's lightweight for ultimate fielding ability. Gloves from the Mark of a Pro Light series boast an innovative mesh back construction which removes excess weight from the glove design translating to increased flexibility and quick motion. Palm and index finger padding provides an extra layer of protection in the key impact areas and a full leather palm design aids in pocket shape retention. Each glove in the Mark of a Pro Light series also features a Neo-Flex™ back design with a Velcro® strap closure providing a quick close and snug, secure fit.

## PLAYMAKER SERIES™

Ideal for both the adult recreational player and youth athlete just starting their playing career, Playmaker series gloves are crafted with full leather palms that are 90% broken in upon purchase. Rawlings' Basket Web® design creates a strong, flexible pocket for easy catch control while cushioned palm and index finger pads add protection in impact areas. Additionally, Velcro® straps deliver a customized fit on the hand that works well for the younger player looking for a snugger fit.

## S100 PRO COMP PROTECTION AT THE PLATE

S100PC/S100PCCH RAWLINGS S100® PRO COMP™ - MSRP: \$666.60

Rawlings' commitment to protecting the game's greatest players has led to the creation of a first-of-its-kind skull cap developed to withstand the impact of a 100 miles-per-hour ball strike\*. Designed for catchers and coaches, the newly released S100® Pro Comp skull cap utilizes the same energy-absorbing and protective technology as featured in its batting helmet predecessor.

- Aerospace-grade composite fiber shell creates an exterior layer that is 300% stiffer and 130 times stronger than ABS shells
- Rawlings Heat Exchange™ air-flow design allows 70% more heat to escape
- Comfortable leather-wrapped padding consists of a hybrid VN and comfort foam

BUSTER  
POSEY

Top vents quickly move heated air from player's head, allowing 70% more heat to escape.

Aerospace-grade carbon fiber/epoxy resin construction is 300% stiffer and 130 times stronger than traditional ABS plastic helmets.

The Rawlings S90™ batting helmet is designed specifically to protect against high-speed impacts up to 90 miles per hour. Targeted for collegiate and high school athletes, the S90™ brings increased protection and performance to any player striving to reach the next level.

## VELO™ SERIES

The smooth-swinging Rawlings Velo™ transforms hitters into an agile force with its game-winning pairing of extreme balance and explosive swing speed. Constructed with Precision-Optimized Performance (pOp 2.0™) technology, the Velo™ is marked by a longer barrel containing an enhanced sweet spot and a Comp-Lite end cap that lowers MOI and increases bat speed. Its stiff alloy handle ensures a consistent feel at the plate while adding strength to each swing. These elements unite to deliver explosive harmony for each athlete choosing a Rawlings Velo™ as their weapon of choice.

Rawlings wood bats have defined the careers of countless baseball greats over the past hundred years and continue to represent Rawlings' core values – quality and innovation. The latest Rawlings wood line-up includes modernized designs, breakthrough technologies and progressive materials that unite to drive performance while increasing one's batting average. Ideal for youth athletes just starting to develop their swing to the pros hitting it out of the park, Rawlings' wood bats remain the authentic, established choice for those seeking to significantly enhance their offense.

## **SELECTING THE RIGHT WOOD**

A quality at-bat starts with quality wood, and this is why the game's biggest pros trust Rawlings at the plate. Rawlings' goal is to provide athletes with the most durable, balanced and high-performing bat whether it be constructed from ash, maple or birch. Understanding the key differences between ash, maple and birch is essential to maximizing each swing and outperforming the competition every time out on the field.

### **MAPLE**

- Closed grains are less visible and will not flake or splinter like ash
- Maple is very dense with an 8-10% moisture content resulting in a hard hitting surface
- Maple can feel slightly heavier than ash due to its closed grain structure and high density

### **ASH**

- As one of the strongest timbers available, ash is durable and known for its exceptional feel
- Ash contains a 10-12% moisture content resulting in additional flexibility and whip
- Ash is porous and lightweight due to its open grain structure

### **BIRCH**

- Closed grain structure prevents flaking and splintering and is Rawlings' most durable wood offering
- Birch is an ideal combination of maple and ash characteristics
- Features increased bat flexibility like an ash with the hardness of a maple

**ACHIEVE EXCELLENCE**

The new Excellence™ bat line from Rawlings has been flawlessly crafted to enable premiere athletes to outperform their own expectations at the plate. Radiating a sleek professional look with elements of both flash and style that the most advanced hitters crave, the Excellence's superior construction and technology exudes confidence with each crack of the bat. Formed at optimal swing weights and designed with acoustic measures to maximize strength and powerhouse offense, this new bat series from Rawlings will empower each athlete to achieve excellence with every swing.

Equipped with top tier grade wood, qualifying billets undergo measured sound wave testing to determine the bat's strength and performance.

The ink dot is placed on the bat taper to measure the slope of the grain. The lower the degree of the slope will result in higher performance and durability of the bat.

**SPLITTING VS. CUTTING**

Wood from the log is split along the grain versus cut against it preventing frayed edges while adding durability.

**VACUUM KILN**

Qualifying billets endure a proven drying process designed to remove moisture and enhance natural wood features providing a hard-hitting surface and vibrant sound on impact.

**BONE RUBBING TECHNOLOGY**

Uneven spots or blemishes on the wood are rubbed away resulting in a compressed, harder-hitting surface with less flaking.

All Rawlings Excellence bats are covered under a 15 day warranty providing confidence and assurance with each swing.

OFFICIAL BASEBALL OF MAJOR LEAGUE BASEBALL®

# **RAWLINGS® IS THE OFFICIAL BASEBALL OF MAJOR LEAGUE BASEBALL®**

Baseball simply would not be baseball without Rawlings' legendary pearls. Trusted by Major League Baseball® to create the game's iconic symbol and authentic, on-field namesake, Rawlings' and its legendary baseballs are the #1 choice of leagues, coaches, parents and players in North America.

In order to play at their highest levels, competitions, leagues and teams demand their baseballs to perform and the highest levels of durability and playability. Powered by its revolutionary Extra Innings Technology™ (EIT™), Rawlings continues to set the standard the rest of the market attempts to mimic.

From elite travel ball tournaments across North America, Japan, Australia and Europe, to introductory games of catch in emerging markets such as Australia and China, Rawlings' is at the center wherever baseball is played.

# COLLEGIATE BASEBALLS

## NCAA® & NAIA™ BALLS

The NCAA® (Division I through III) and the NAIA™ will officially adopt and begin using Rawlings' flat-seam baseballs February 2015 after Rawlings' research highlighted an average 26-foot increase in flat-seam baseball distances compared to raised-seam baseballs. The NCAA's own independent testing verified Rawlings' original conclusions.

According to the NCAA®, the switch to Rawlings' flat-seams baseballs will not compromise players' health and protection as the increases in distance (due to less drag on the ball) does not change the baseball's C.O.R. or bat-exit speed.

\* when launched out of a pitching machine at averages of 95 MPH, at a 25-degree angle and a 2200RPM spin rate

## THERMAL GRAPHIC PROGRAM

The Rawlings Thermal Graphic is a specially formulated blend of digital inks that are adhered with a state of the art bottom heat application to create a lasting bond with fabrics.

## THERMAL GRAPHIC ADVANTAGES

- Improved elasticity & adhesion for a functional and lasting fit
- Dye migration inhibitor stops color loss and bleeding
- Lighter than Perma-Print and Twill applications
- 30+ color options and expanded design offerings

VaporFusion™ is the process of fusing ink into fabric fibers to create permanently bonded colors. This state-of-the-art equipment is used to decorate Rawlings' finest premium fabrics and twill. VaporFusion™ is lighter, faster, and more durable.

## SUBLIMATED TWILL

- Twill just got faster – 24% lighter than standard 1 color twill
- Twill just got more functional –has more “give” than standard twill applications
- Twill just got more personal – boundless customization with 30+ colors

## **WASHING GUIDE**

**DO WASH UNIFORMS PRIOR TO FIRST USE AND IMMEDIATELY AFTER EACH USE.**

Naturally occurring PH levels in sweat may cause dye migration in first use. We recommend a detergent similar to Tide™ for cold water to help decrease the chance of this happening. Prior to washing in cool water, turning the garments inside out will help preserve Twill, Perma-Print®, and Embroidery. Claspings Velcro® prior to washing may help prevent snagging or picking.

**DO NOT WASH UNIFORMS WITH OTHER ITEMS.** Bleeding may occur.

**DO NOT USE BLEACH.** Bleach will deteriorate fabric fibers and may cause color loss.

**DO NOT OVERLOAD WASHER OR DRYER.** Hang dry is recommended for best results. In the dryer, overloading may cause the uniforms to stick together, especially those with Perma-Print® ink. Remove garments immediately after both wash and dry cycles. To avoid static and lint build-up, use an anti-static agent such as Bounce® Dryer Sheets.

**DO NOT EXPOSE UNIFORMS TO HIGH HEAT.** Excessive heat is the enemy of your uniform. Heat presses, ironing, dry cleaning, or heat transfers may cause dye migration and may break down fabric fibers. Also excessive heat, especially in dryers, can cause shrinkage above normal tolerances, cause Perma-Print® ink to crack, and Twill to wrinkle. If you use a dryer, please use a “damp dry” or “air dry” setting.

**DO STORE IN A DRY, ROOM TEMPERATURE AREA, AWAY FROM DIRECT SUNLIGHT.** Excessive sunlight may cause discoloration.

Heavily soiled garments (grass, dirt, clay mud), pre-treatment is recommended

- Spray on products such as Spray'n Wash®, Shout®, or ESPRO® cleaner have been tested with positive results.
- Products such as Stick Stain® or Shout Gel® can be used for stubborn stains.
- For blood stains, it is best to rinse in room temperature water as soon as possible, and if necessary, soak in room temperature water before washing. One of the above pre-treatments can also be used, or an oxygen based laundry booster such as Oxy Clean® can also be used.
- For ink stains, use hair spray as soon as possible. Delaying the application of hair spray may decrease results. Spray on stain and rub until the ink is gone. Wash as normal.
