

2016 SPRING/SUMMER **RIDE**

BEFORE SKETCHING A SINGLE DESIGN,
CHOOSING A SINGLE FABRIC OR MAKING
A SINGLE STITCH, WE THOUGHT ABOUT
THE SINGLE MOST IMPORTANT THING:

WHY YOU RIDE.

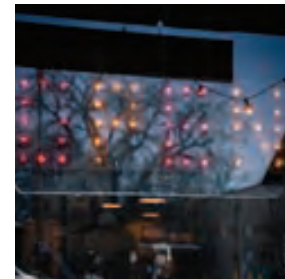

PURSUIT

SOME RIDE TO PUSH THEIR LIMITS. TO MEASURE THEMSELVES AGAINST OTHERS. TO SCRUTINIZE THEIR RIDE DATA AND PERFORMANCE NUMBERS. THEY'RE IN IT TO WIN IT. FOR THESE RIDERS, WE PROUDLY PRESENT THE PEARL IZUMI PURSUIT COLLECTION.

ESCAPE

SOME RIDE IN SEARCH OF FREEDOM AND A DEEPER CONNECTION TO THE OUTSIDE WORLD. TO GO WHERE THE RIDE TAKES THEM. FOR THE EXPERIENCE. INTRODUCING A LINE THAT DELIVERS WHAT THESE RIDERS SEEK. THE PEARL IZUMI ESCAPE COLLECTION.

Over 20 years ago we changed the cycling world forever with the introduction of our **SCREAMING YELLOW JACKET.**

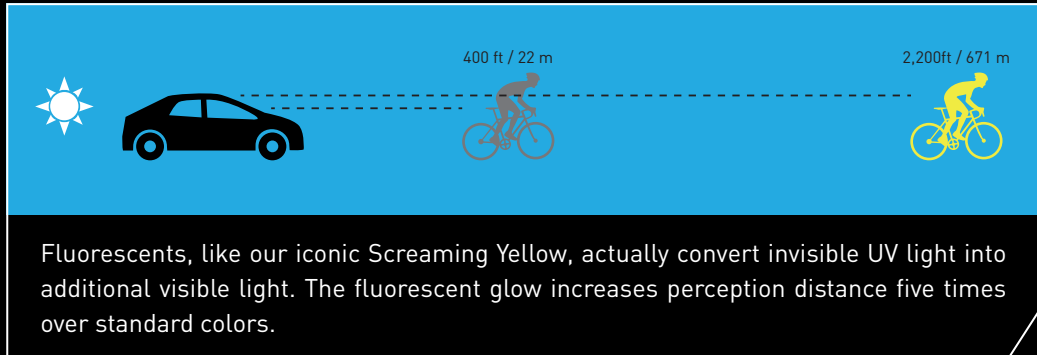

Now we are raising the bar on visibility again with **PEARL IZUMI BioViz™.**

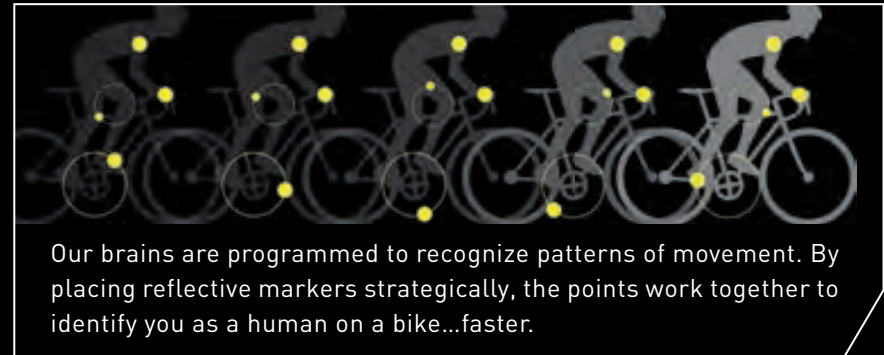

BioViz™

BioViz™ was developed from behind the steering wheel, studying how drivers see and react. We found that by leveraging human biology, we could stimulate drivers with information in three ways.

P.R.O. LTD Speed Jersey

Modeled after what the BMC Pro Team wears in the WorldTour peloton, this jersey is designed for superior aero efficiency, anatomic fit and comfort. Our patent-pending Speed Sleeve construction eliminates wrinkles around the shoulder, and coupled with our textured Transfer Aero fabric, it delivers a significant reduction in aerodynamic drag. Seven sizes, including special in-between S/M and M/L options, mean you can dial in a perfect fit. Pairs with our P.R.O. Pursuit Bib Short for the ultimate high performance kit.

- P.R.O. Transfer In-R-Cool® fabric powered by coldblack® provides optimal cooling and reflective sun protection
- P.R.O. Aero fabric in key leading edge areas reduces aerodynamic drag
- Patent-pending anatomic Speed Sleeve construction
- Flatlock seams for smooth interior construction
- Full length zipper for venting
- Three back pockets with hidden sweat-proof pocket
- With S/M and M/L sizes for a more personalized fit

\$150

P.R.O. Leader Jersey

Our most advanced jersey incorporates cutting edge material technology and technical construction methods to deliver our highest levels of comfort and performance. P.R.O. Transfer In-R-Cool® fabric helps you maintain a lower skin temperature on hot days, improving performance over the long haul. Patent-pending Speed Sleeve construction eliminates wrinkles around the shoulder for a tailored fit that reduces aero drag. Pair with our P.R.O. Pursuit Bib Short for a coordinated high performance kit.

- P.R.O. Transfer In-R-Cool® fabric for optimal moisture transfer, dry time and odor absorption
- Sleeve/shoulder panels use P.R.O. Transfer fabric powered by coldblack® for optimal cooling and reflective sun protection
- Direct-Vent panels provide superior ventilation
- Patent-pending anatomic Speed Sleeve construction
- Full length zipper for venting
- Three back pockets plus sweat-proof security pocket
- Structural mesh panel on back for pocket support
- Reflective elements for low-light visibility
- With S/M and M/L sizes for a more personalized fit

P.R.O. Pursuit Bib Short

NEW

Whether chasing a podium position or pursuing personal records, there's no substitute for the performance advantages offered by our top-of-the-line P.R.O. Pursuit Bib Short. Modeled after the kit worn by the BMC Pro Team, these bib shorts feature an extended 10-inch inseam for better muscle support, and are outfitted with our P.R.O. Pursuit 1:1™ Chamois, which is designed to provide maximum support when riding in the drops. Pair with our P.R.O. Leader Jersey or P.R.O. LTD Speed Jersey and you'll be ready to ride off the front of the pack.

- High end P.R.O. Transfer In-R-Cool® fabric powered by coldblack® provides an incredibly balanced stretch and recovery for muscle support and comfort
- P.R.O. Pursuit 1:1™ Chamois
- P.R.O. Transfer Direct Vent mesh bib upper provides excellent moisture transfer, odor resistance and dry time
- Applied silicone grip material at leg opening holds short in position
- Reflective elements [black colorway] for low light visibility
- 10" inseam (size medium)

ELITE Escape Semi-Form Jersey

NEW

Just because you're not built like a "king of the mountains contender" doesn't mean your jersey can't be a podium performer. The ELITE Semi-Form Jersey melds high performance with a semi-form fit that's roomy enough for riders with a bigger build or perfect if you don't want your jersey tight.

- ELITE Transfer In-R-Cool® fabric powered by Ice-fil® provides superior skin cooling
- Direct-Vent panels provide superior ventilation
- Full-length zipper for venting
- Three back pockets plus external stow pockets for extra storage capacity
- Reflective elements for low-light visibility

W SELECT WxB Jacket

Subtle contoured shaping and fully seam sealed waterproof fabric make the Women's SELECT WxB Jacket your go-to garment for rainy day rides. The elastic sleeve openings fit over thicker layers and underneath gloves to keep the cold at bay. The single zip rear pocket provides safe storage, plus the jacket features BioViz™ reflective detailing to keep you visible, even at dawn or dusk.

- Fully seam sealed for waterproofing
- Sleeve opening elasticized to fit over thicker layers, and over or under gloves
- Single zippered rear pocket with reflective detail
- BioViz™ reflective elements for low-light visibility

W ELITE Barrier Vest

One of the most essential and versatile pieces in any cyclist's apparel arsenal, this super light and packable vest offers warmth and protection from wind and cool temperatures. Designed to help you maintain core warmth on cool days without the added wind drag of a full jacket, the Women's ELITE Barrier Vest pairs well with arm warmers for versatility in changing weather conditions. When the temperature warms up, remove the vest and stuff it in a jersey pocket—it's so light you'll barely know it's there.

- ELITE Barrier fabric provides superior wind protection and water resistance
- Direct-Vent panels provide superior ventilation
- Full-length internal draft flap with zipper garage seals in warmth
- One hand pull elastic draw cord at waist with welded, reinforced exit point
- One zippered back pocket
- BioViz™ reflective elements for low-light visibility

14241401 **W SELECT Glove**

Protect your palms with the value packed women's specific SELECT Glove. It has strategically placed Gel-Foam padding to relieve pressure on sensitive nerves and reduce hand numbness. The low-profile wiping surface on the thumb is handy when perspiration starts, and a simple-to-operate hook-and-loop closure makes them easy to get on and off.

- Gel-Foam padding relieves pressure on ulnar and median nerves for riding comfort
- Synthetic leather palm is soft and durable
- Soft, low-profile wiping surface on thumb
- Hook and loop closure

Transfer Short Sleeve Baselayer

NEW

This cycling specific summer weight baselayer is designed to keep you cool and comfortable even on hot days. Transfer fabric facilitates the evaporative process by rapidly moving moisture away from your skin to outer layers, while activated charcoal in the front panel fabric further speeds dry time and cooling. In back, mesh panels maximize ventilation. Patent-pending Speed Sleeve anatomic construction hugs the contours of your shoulders, providing a second-skin fit when in the bent-over riding positioning. Wear this baselayer under a short sleeve jersey during the heat of summer, and then add it to your cool weather layering system during chillier months.

- P.R.O. Transfer Dry fabric provides optimal moisture transfer for quick dry performance
- Patent-pending anatomic Speed Sleeve construction for best shoulder fit in the cycling position
- Cycling specific, close to body, anatomic fit
- Activated charcoal integrated into the yarns used in front panels to speed dry time even more
- Soft merrow seams for next to body comfort

UNISEX

Our ultimate Pro Tour level shoe is designed to disappear on your foot — but still transfer every last watt of power to your pedals. High performance features include our new 1:1 Integrated Power Plate, which eliminates the traditional lasting board and reduces stack height by 1.5mm. Plus the combination of an ultra thin upper with our unique dual-zone Bi-directional closure system wraps the foot without wrinkling, delivering a secure and comfortable second-skin fit.

- Seamless 0.9mm Second Skin Upper: the thinnest upper on the market, it adapts comfortably to your unique foot shape to eliminate hot spots and offers superior breathability
- Power Web: a non-stretch web that easily conforms to your foot, but keeps you bolted to the pedal for maximum efficiency under hard efforts
- Zonal Bi-directional Closure: delivers a semi-custom fit by gathering equally from both sides for even foot retention, with the precision of two IP1 micro-adjustable BOA reels per shoe
- 1:1 Integrated Power Plate: feather-light stiffness (stiffness rating of 13) and close to foot stack height of 5mm
- 1:1 Insole System gives independent left and right arch and forefoot various canting height options.

15315003 X-PROJECT® 1.0 \$320

The X-PROJECT® 1.0 is the pinnacle of the X-PROJECT® line, which features a uniquely constructed sole that is flexible in the right places for hiking or running, but as efficient as a fully rigid carbon bottom when pedaling. A patent-pending carbon plate provides optimal power transfer for the best of both worlds. It's a perfect shoe for mountain bikers and cyclocross racers alike.

- Seamless 0.9mm Second Skin Upper: the thinnest upper on the market, it adapts comfortably to your unique foot shape to eliminate hot spots and offers superior breathability
- Power Web: a non-stretch web that easily conforms to your foot, but keeps you bolted to the pedal for maximum efficiency under hard efforts
- Bi-directional Closure: delivers a semi-custom fit by gathering equally from both sides for even foot retention, with the precision of a micro-adjustable BOA reel
- Seamless construction in the toe area for comfort in the flex zone
- Run shoe EVA foam heel absorbs impact for off-the-bike comfort
- Full-length tapered carbon fiber plate (patent-pending) gives on-the-bike power transfer and off-the-bike hike-ability
- Co-molded rubber tips on hollow TPU lugs provide traction on an extremely lightweight bottom unit
- 1:1 Insole System gives independent left and right arch and forefoot various canting height options.

MEN'S

Taking design cues from lace-up running shoes, the X-Road Fuel IV is at home on the bike, at the gym, or around town. The fiberglass injected composite shank maximizes power transfer to the pedals, while the EVA run shoe foam midsole ensures all-day ride comfort. SPD compatibility means they'll work with the most common pedal standard, and the rubber lugged outsole delivers superior traction and long-lasting durability.

- Low cut construction for a light, fast fit and feel
- Quick drying, highly breathable mesh/synthetic upper
- Built in lace garage eliminates drivetrain interference
- X-Road nylon plate delivers great pedaling stability, power and efficiency with off-the-bike comfort and walk-ability
- Rubber lugged outsole for superior traction and durability
- Flexible forefoot and a running shoe beveled heel
- SPD compatible

UNISEX

Our most technical, lightest weight multi-sport offering is the ideal race day triathlon shoe for chasing a podium position or pursuing a PR. Each shoe weighs just 185 g and the 0.9mm Second Skin Upper is the thinnest on the market, ensuring a perfectly contoured fit with no hotspots, while seamless construction delivers superior barefoot comfort.

- 1:1 Anatomic TRI Closure: eliminates hot spots and removes pressure from your forefoot (patent pending)
- 0.9mm Second Skin Upper: the thinnest upper on the market, it adapts comfortably to your unique foot shape to eliminate hot spots and offers superior breathability
- Seamless upper construction for barefoot comfort
- OCTANE 1:1 Power Plate: Octane Grade Uni-Directional Carbon for feather-light stiffness; Direct-Vent technology for cooling and drainage
- Octane SL Insole provides unheard of lightweight support

\$180

MEN'S

This lightweight high performance triathlon race shoe features a 1:1 Anatomic TRI Closure that traces the contours of your foot, eliminating hotspots. No watt is wasted thanks to the P.R.O. 1:1 Power Plate sole that's constructed from unidirectional carbon and has built in longitudinal arch support for maximum comfort and efficient power transfer. Race day transition time is minimized via the fully lined mesh upper that's designed for barefoot comfort.

- 1:1 Anatomic TRI Closure: eliminates hot spots and removes pressure from your forefoot (patent-pending)
- Fully lined mesh upper for barefoot comfort
- P.R.O. 1:1 Power Plate: P.R.O. Grade Uni-Directional Carbon for ultra-light stiffness; Direct-Vent technology for cooling and drainage; and built in Longitudinal Arch Support for optimal support, power, and efficiency
- Replaceable heel bumper
- Dual density EVA insole for superior support

MEN'S

Whether you're new to the multi-sport world or a sage veteran on a budget, the SELECT Series Tri Fly V delivers top-shelf performance and superior value. These shoes have the same comfortable upper as our Tri Fly V Carbon, plus run-shoe EVA foam and a rubber heel bumper for increased stability in the transition zone. The fully lined mesh upper is designed for barefoot comfort, assuring you won't lose valuable seconds in transition.

- 1:1 Anatomic TRI Closure: eliminates hot spots and removes pressure from your instep
- Fully lined mesh upper for bare foot comfort
- SELECT 1:1 Power Plate: SELECT Grade Nylon and Composite Fiber plate for lightweight stiffness and durability; Direct-Vent technology for cooling and drainage; and built in Longitudinal Arch Support for optimal support, power, and efficiency
- EVA foam and rubber heel bumper provide stability and walking comfort
- SELECT Insole provides excellent Longitudinal and Transverse Arch Support
- SPD-SL and SPD compatible
