# Fabrics for all sports.

**PowerSport**

Fabrics with excellent stretch and recovery properties. These fabrics are used mostly for garments that fit tight against the body or when compression is needed.

**ComfortSport**

These silky like micro-fiber fabrics both perform and keep you comfortable on the field, court, or at the gym.

**EnduraSport**

The most durable products in the team marketplace. Fabrics that can withstand the pounding, sliding, and physical abuse on the field.

**FreshSport**

Fabrics that can withstand the perspiration and odor from a workout or game day event. Anti-microbial properties keep your garment fresh and odor free.
