

McDAVID®

6'4" THINKING in a 6' BASEMENT

Always thinking above and beyond. Always peering ahead of the curve. Always asking "Why not?" and "Who says we can't?" More than 35 years ago, McDavid began developing and building the go-to athletic braces, supports and innovations of a generation. We have always supported the athlete's right to perform, right to be protected and right

to recover. Before there was "sports medicine," there was McDavid SportMed®. Before there was integrated protective apparel in all its forms, there was McDavid HEX™. And we continue to be "before" the crowd. We've gone from the basement, to the garage to the globe. Next?

PERFORMANCE

NOW (STILL) PERFORMING

We're athlete-**DRIVEN**, athlete-**FOCUSED** and yes, we admit it, athlete-**OBSESSED** (not in a creepy social stalking way). So with all of this athlete-hyphenating going on, we fully understand the never-ending need to perform with **111% AWESOMENESS**.

At McDavid, the old lamp in the lab **NEVER SWITCHES OFF**. We continue to innovate the new and re-innovate the proven. See our Protection Section for new and upgrade confidence makers. Check out the SportMed® pages for technologies that change games and move the needle further up the scale of athletic potential. Performance is **EVERYTHING** and everything we do **PERFORMS**.

NEW 8841 ELITE Compression Socks / pair

BEST FOR Improved circulation and support during activity and enhanced recovery post activity.

- **TARGETED COMPRESSION**™ creates increased blood flow to feet and calves
- Millimeters of Mercury measurements: 18-21 mmHg at ankle. 12.6-14.7 mmHg at top of sock
- Anatomical 3D knit design at toe and heel for improved comfort and protection
- Unique specialty yarn for added recovery, energy, comfort, sweat absorption, circulation and antimicrobial properties
- Added ankle stabilizer for enhanced joint support
- Better grip with traction designed footbed
- hDc™ Moisture Management Tech wicks the sweats and brings the cool
- Swiss-Made quality
- Includes one pair, right/left specific

COLORS Black; Black/Alt Blue; Black/Alt Pink; Black/Alt Yellow

Sizes: XS-XL
MSRP: \$49.99 USD

Content: 44% [Cotton/SeaCell™/Smartcel™ Sensitive]/34% Tactel®/14% polyamide/8% Lycra® (elastane)

Performance Carton

Perform with Swiss precision

NEW 8846 ELITE Compression Calf Sleeves / pair

BEST FOR Improved circulation and support during activity and enhanced recovery post activity.

- **TARGETED COMPRESSION**™ creates increased blood flow to calves
- Millimeters of Mercury measurements: 18-21 mmHg at bottom of sleeve. 12-14.7 mmHg at top of sleeve
- Engineered with quick-drying and antimicrobial 3-yarn specialty blend for improved recovery, comfort and odor control
- hDc™ Moisture Management Tech wicks the sweats and brings the cool
- Swiss-Made quality
- Includes one pair

COLORS Black; Black/Alt Blue; Black/Alt Pink; Black/Alt Yellow

Sizes: XS-2XL
MSRP: \$39.99 USD

Content: 50% Tactel®/40% polyamide/10% Lycra® (elastane)

Recovery begins with the sole

TARGETED COMPRESSION™

Compression levels designed to apply higher pressure at the ankle, while gradually tapering off up the calf. This graduated tension allows better blood flow for faster re-oxygenation and reduction of lactic acid.

TRANSLATION: Helps you run/train longer and better. Helps you recover faster and more completely.

- + Dedicated Swiss-made craftsmanship
- + High-tech, hybrid yarns blended for dryness, odor reduction and elevated hygiene
- + Enhanced blood flow
- + Reduced lactic acid
- + Muscle stimulation & stability

• Reduced fatigue, increased comfort for improved performance or recovery

6301 DUAL COMPRESSION™ Ankle Sleeve

BEST FOR Basic support for instability; helps in relieving pain and enhancing recovery.

- Integrates high-performance compression sleeve with support tape
- Provides joint support/stability while maintaining mobility and flexibility
- Helps relieve muscle soreness and pain, while reducing swelling
- Keeps muscles warm, while relieving strain and fatigue
- Aids in rapid recovery and performance
- Wicks sweat away from skin to prevent chafing and rashes
- Slips easily on and easily off
- Machine washable/dryable
- Includes one sleeve
- Fits left or right

COLOR Charcoal/Black

Sizes: S-L **Content:** Body: 82% nylon/18% spandex (elastane); support tape: 100% polyurethane **Performance Carton**

Supporting your every awesome move

NEW 6306 Active Comfort Compression Ankle Sleeve

BEST FOR Pain relief and moderate support while fully active.

- Added compression, support and stability via tech-print
- Move in comfort with super lightweight construction
- 4-way stretch fabric for moisture-wicking, temp-regulating, breathable comfort

COLOR Gray/Black

Sizes: XS-XL **Content:** 82% nylon/18% spandex (elastane) **Clamshell Packaging**

Keeping you in your game & on your game

6300 DUAL COMPRESSION™ Knee Sleeve

ACT ACTIVE COOLING TECHNOLOGY™

When *you are* active, *we are* active. This is science purposely activated to put you into **COOL MODE**.

ACTIVE COOLING TECHNOLOGY by McDavid is our latest development in the area of dynamic thermo management. ACT features an *enhanced evaporative cooling effect* that may keep your skin up to **5° FAHRENHEIT COOLER (2°C)**. Like every aspect of competition and training, split seconds matter, millimeters matter and degrees matter.

ACT actively retains warmth within the muscles while cooling the skin's surface. Blood flow and in turn, performance is further enhanced with built-in compression capabilities. Find ACT fabrication in all our new uCool™ products. Active Cooling Technology keeps your game **HOT** and **uCOOL**.

You'll be back better than ever

CROSS™ COMPRESSION

This tech utilizes general compression science and our breathable, high-tenacity technical fabric, in a design that mimics the **TAPING TECHNIQUES** of **ATHLETIC TRAINERS**. These techniques address common injuries to the hamstring, glute and quad muscle groups.

Cross Compression™ employs **STABILIZING** compression and a unique banding pattern that mimics the hip spica wrap used to treat **GROIN PULLS**, **HIP ABDUCTOR** and **FLEXOR STRAINS**. This helps prevent and aids in the recovery of large muscle injuries.

PROTECTION

OFFICIAL PARTNER of:

TO PROTECT & SERVE

If we wore badges, the motto above would be emblazoned across their shiny surfaces. But thankfully, we realize badges would be weird. So instead we just keep **KICKING IN** the doors of innovation and **BREAKING THROUGH** to another level of athletic protection. 2017 brings a serious **EXPANSION** of our **HEX™** protective apparel on the **FOOTBALL** gridiron and the **BASKETBALL** court. McDavid's in every game on **COUNTLESS PROFESSIONAL** and **COLLEGIATE** players protecting themselves with the best.

HEX's first cousin **TEFLX™** is establishing its own strong identity with a new name **HEX TUF**. HEX TUF is specifically developed to handle heavy contact between **BODY AND BODY**, but more uniquely, **BODY-TO-SURFACE** impact. Unique properties make HEX TUF especially suited for court sports and hard surface use...also a great idea for youth players who put **DURABILITY** to a big test. The gear keeps getting smarter and better—so we're also making the **PACKAGE** smarter, better and more gimme-gimme irresistible. Protection is our game and we're in it to **WIN IT**.

HEX™ TUF

When you're playing **big** and making **frequent contact** with unforgiving floors and the hard surfaces of sport, you want to be wearing **TEFLX™**. McDavid has created a unique, ultra-durable resistance technology that's ideally developed for the most **SEVERE SURFACES**. By infusing a powerfully **tough element** to our industry-leading **HEX™ padding**, we present TEFLX. Think gym floors, courts, obstacle courses and the hard tests of your most torturous imagination. Withstand the repeated **scuffs, skids** and **tears** of hard-surface play. Save wear and tear on **YOU** and **YOUR GEAR**.

6515XDD HEX™ TUF Dual Density Volleyball Knee / Elbow Pads / pair

- HEX™ TUF knee/elbow pads with TEFLX™ Technology provide ultra-durable resistance uniquely suited to the rigors of court sports, withstanding repeated scuffs and skids on all surfaces
- Ideal for body-to-surface contact or body-to-body contact
- 12mm Hex™ Technology in a low profile, minimized design
- Dry and cool via hDc™ Moisture Management Technology
- Machine washable/dryable
- Tested by an independent testing lab for abrasion, durability and strength—meeting or exceeding ASTM textile test standards
- Fits high or low on knee for sport preference

Protection. Compression. Solution.

HEX™

We are the original **PROTECTORS** of athletic performance. Hex is our patented technology that *permanently fuses* flexible closed-cell foam padding to technical fabric. Hex **MOVES FREELY** and in synch with an athlete's body movements. Hex is **LIGHTWEIGHT** and amazingly versatile. Hex is completely machine-washable and dryable. Hex comes in three protective thicknesses: 9mm, 12mm and 14mm. Hex started it all.

FREELASTICS Knee Sleeve

[PAGE 118]

SPORTMED®

PROTECTION SELECTION Choose from our **THREE+ LEVELS OF PROTECTION:**

1

PRIMARY LEVEL 1

BEST FOR:

- Minor pain and sprains
- Promotes healing through the use of neoprene thermal therapy and/or breathable elastic

Features sleeves and supports designed to deliver general-purpose protection and compression support. This is simple and cost effective management of minor pain and swelling associated with sprains, arthritis, bursitis, tendonitis or other chronic minor symptoms.

2

ADVANCED LEVEL 2

BEST FOR:

- Minor to moderate ligament instabilities or pain
- Promotes healing through the use of neoprene thermal therapy and/or breathable elastic

For management of minor to moderate symptoms associated with swelling and recovering sprains or chronic conditions such as arthritis, bursitis and tendonitis. Offering a wider range user adjustment of compression support, via additional straps, stays or gel buttresses.

3

MAXIMUM LEVEL 3

BEST FOR:

- Moderate to major instabilities and pain
- Includes features like hinges, splints, straps and stays for additional protection and support
- Neoprene promotes healing through therapeutic heat retention and soft tissue support
- Breathable elastic knit provides compression support with extended wear comfort

Best choice for proactive injury prevention and protection from excessive range of motion. Provides maximum vibration damping and support of joint capsules, bursae and related soft tissues. Top choice for management of chronic or post-surgical joint protection.

3+

MAXIMUM+ LEVEL 3+

BEST FOR:

- Moderate to major instabilities and pain
- Includes the most advanced features like precision hinges, molded anatomical splints, premium straps and specific right/left fit for ultimate performance protection and support
- Utilizes the most advanced designs, materials, and manufacturing methods

Braces specifically developed for maximum level support protection for moderate to significant joint instabilities and conditions. Premium brace design and quality provide the ultimate choice for injury prevention or post-surgical joint protection and therapeutic recovery.

SO HAPPY TOGETHER

35 YEARS AGO Sport was **INTRODUCED** to Medicine in a suburb of Chicago and they've been going strong ever since. McDavid engineered this match with the **FIRST EVER** lateral knee brace used by the big boys of football. Three and half decades on, we continue to **MOVE THE NEEDLE** higher and higher with new ideas, new innovations and new ways to keep athletes athletic. 2017 is no exception to our needle-moving traditions—you'll find minor SportMed **REFINEMENTS** that make major differences to full-on, mic-dropping SportMed **BREAKOUTS** that create new potential for performance. Turn the page and feel the **PASSION**.

Bio-Logix™ Ankle Brace

*Rigidity and flexibility combine to create our full range-of-motion Flex-Link Hinge for unmatched support and anatomical integration. This easy-to-use brace provides ultimate fit, support and performance. How? Foot shape adaption via **3D contoured** ankle alignment pocket with molded support stays and integrated articulating stirrup support. Next, the TPU molded external overlays enhances support with an anatomical contouring fit. The independent Heel-Lock Stability Strap delivers **personalized fit** at the Achilles and connects lateral structure to medial side. Our no-fuss, color-coded Figure-8 Strapping System supports and compresses. The Anti-Slip silicone sole enhances in-shoe contact for improved performance. The brace size **adapts** as you recover and swelling lessens. Simple rear access with forefoot sleeve and quick-wrap closure provide superb ease of use and fit. Finally, brace comes left and right, because you come left and right. **It's only Bio-Logical.** PATENT PENDING*

- ▶ **Flexible** anatomical integration
- ▶ **3D Contouring**
- ▶ **Articulates** to the shape of the foot
- ▶ **Size Adaptive** as you recover
- ▶ **Anti-slip** silicone sole
- ▶ **Heel-Lock** Stability Strap
- ▶ **No-fuss** integrated **Figure-8** Strapping System

Bio-Logix™ Knee Brace (4200)

Low profile. Less weight. Max stability. Amazing comfort. Game-altering technology. This refined combo of **rigid** and **soft** materials creates precision semi-rigid support with **self-adaptive fit** and Body-In-Motion flex. The C-Link Frame brings medial and lateral hinges into **anatomic harmony**. The Anti-Migration Strap System delivers fantastic range of **adjustment** and a **supportive** tie-in throughout. Underneath it all is the Sleeve-Lock™. Our unique compression sleeve provides advantages, like more support, comfort, fit, performance and recovery. In addition, the sleeve folds up, down and ultimately over the brace to **streamline** and **secure** like no other. Get Bio-Logix for your biology.

COLD RECOVERY

We can't claim to have *invented* cold, but we certainly have *innovated* it. Our **COLD RECOVERY** line of elbow, knee and ankle sleeves is designed to be **tossed into the freezer** and strapped on to your joint, while you remain as **MOBILE** as you like. By using our exclusive *Engineered Elastic, custom refreeze packets* and a unique *vapor barrier*, the recovery continues with compression once the ice has warmed.

We've got **RECOVERY** down **COLD**.

2 LEVEL 2: ADVANCED PROTECTION

5142 Recovery Ankle Sleeve / 4-way elastic w/ custom-cold pack

BEST FOR » Minor to moderate pain relief and discomfort, enhanced recovery and healing, reduces swelling while providing support

- 4-way elastic material with custom-cold packs provides cold compression and stability of muscles, tendons and ligaments
- Ideal for acute and chronic injuries
- Includes 2 reusable, and removable, custom-cold packs designed specifically for targeted pain relief
- Comfortable, form-fitting
- Stay active while wearing
- Easy-on, easy-off
- Simply place entire sleeve in freezer
- Remove custom-cold pack and use as SportMed® sleeve when needed for added support and compression without heat retention

• Fits left or right

Color: Black

Sizes: S-XL

Content: 79% nylon/12% spandex (elastane)/7% polyester/2% TPU

You can dance while you recover (but don't)

6203
KINESIOLOGY
TECH Lower Leg / Ankle

- The only kit comprised of 3 ready-to-go pre-engineered pieces designed for fast, simple and effective kinesiology taping—best for achilles tendonitis, shin-splints, instability, swelling, strains and sprains.
- Lifts the skin at a micro level to allow enhanced circulation for help in pain relief, swelling mitigation and overall healing
- Lightweight, water and sweat resistant
- Can be worn for up to 5 days
- Includes 2 applications, 6 individual pieces – one size fits most
- Includes instructions for 3 common conditions

Contents: 100% cotton with hypo-allergenic latex-free adhesive

The ultimate in stick-to-itivity

6204
KINESIOLOGY
TECH Knee

- The only kit comprised of 3 ready-to-go pre-engineered pieces designed for fast, simple and effective kinesiology taping—best for instability, pain, swelling, iliotibial band syndrome and patellar tracking.
- Lifts the skin at a micro level to allow enhanced circulation for help in pain relief, swelling mitigation and overall healing
- Lightweight, water and sweat resistant
- Can be worn for up to 5 days
- Includes 2 applications, 6 individual pieces – one size fits most
- Includes instructions for 3 common conditions

Contents: 100% cotton with hypo-allergenic latex-free adhesive

Tape. Up. with McDavid innovation

6205
KINESIOLOGY
TECH Elbow / Wrist

- The only kit comprised of 3 ready-to-go pre-engineered pieces designed for fast, simple and effective kinesiology taping—best for non-specific pain, tennis/golf elbow, instability, strains and sprains.
- Lifts the skin at a micro level to allow enhanced circulation for help in pain relief, swelling mitigation and overall healing
- Lightweight, water and sweat resistant
- Can be worn for up to 5 days
- Includes 2 applications, 6 individual pieces – one size fits most
- Includes instructions for 3 common conditions

Contents: 100% cotton with hypo-allergenic latex-free adhesive

Kinesiology for your Physiology

6206
KINESIOLOGY
TECH Shoulder / Back

- The only kit comprised of 3 ready-to-go pre-engineered pieces designed for fast, simple and effective kinesiology taping—best for non-specific pain, instability, rotation issues, strains, postural support and more.
- Lifts the skin at a micro level to allow enhanced circulation for help in pain relief, swelling mitigation and overall healing
- Lightweight, water and sweat resistant
- Can be worn for up to 5 days
- Includes 2 applications, 6 individual pieces – one size fits most
- Includes instructions for 3 common conditions

Contents: 100% cotton with hypo-allergenic latex-free adhesive

 - Available in 12-pack only
- Size:** 9.5" x 5.5"

Reusable therapy for the abuse-able body

MSRP: 12-pack: \$33.99 USD

Bulk Packed in Cardboard Box

MEASURE TRUE

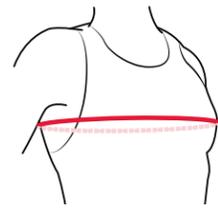

WRIST

Keeping wrist straight, measure directly over joint including wrist bones.

FOREARM

With your arm slightly flexed, measure the fullest part of your forearm, typically midway between your wrist and elbow.

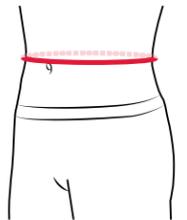

CHEST

Stand and measure around the fullest part of your chest. Tape should be parallel with the floor. (No Super Hero chest puffing.)

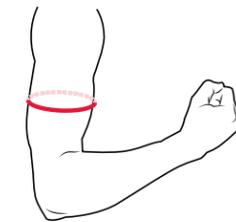

ANKLE

Stand and measure the circumference directly around the joint (the knobby bits). If you measure while seated, flex your foot slightly back toward yourself and measure just above joint.

WAIST

Stand with stomach relaxed (c'mon, you're among friends here). Measure the minimum circumference (skinniest part) in the waist area. Tape should be parallel with the floor.

BICEP

With your arm slightly flexed (remember, "slightly"), measure the fullest part of upper arm/bicep. When ordering a pair, take measurements on both arms and use the average of the results.

THIGH

Stand and measure the maximum circumference (meatiest part) of your upper leg near the crotch.

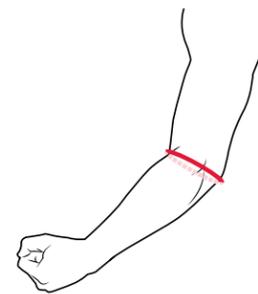

CALF

Stand and measure the calf in question (you knew this). Measure at the fullest part of the calf. When ordering a pair, take measurements on both calves and use the average of the results.

KNEE

Measure the knee to be protected (you likely figured that). Stand and bend your leg just less than 45 degrees, measure around the largest part of knee, directly over the patella (kneecap)

ELBOW

Bend your elbow to approximately 45 degrees and measure directly over the joint. When ordering a pair, take measurements on both elbows and use the average of the results.
