## OAKLEY COMP BAG 2.0

We built a bag to end the chaos of cables and anarchy of accessories, and it takes the classic Oakley Computer Bag to a new level. This design offers plenty of pockets and dividers to organize your accessories and files. Every detail speaks to the quality and craftsmanship that earned us our rep in bag design. It's built for both comfort and convenience, and the military-grade ballistic nylon will probably outlast your laptop.

### VERTICAL COMP BAG 3.0

Updated with a streamlined, stowaway carrying-handle, the ballistic nylon Vertical Computer Bag is more functional and travel-friendly than ever. The lightweight design eliminates the bulk of conventional computer briefcases, while offering plenty of storage and attachment options. The padded main compartment fits a laptop up to 15 inches. New low-profile side pockets store cables and cords, while a zippered, self-contained pouch stows loose office items. Travel documents fit in the convenient mesh pocket, and the shielded accessory pocket blocks Radio Frequency (RF) waves to help protect your Bluetooth-enabled PDA or mobile phone from unwanted access.

### SMALL DUFFEL

Carry duffel with tuck away backpack straps.

- 21" L x 12" W x 8" D
- 3 modes of carry - hand grip, shoulder strap, backpack straps
- Split main opening allows for easy access to gear
- Lockable zipper pull
- ID tag holster
- Outer zip pocket
