TPS® BIONIC SLIDING KNEE PADS

- Anatomical design with multiple relief components
- Combination of multi-density pads provides comfort fit
- Pads adjust with knee flexion
- Available in long and short versions
- 2 sizes: Small/Medium and Large/Extra Large
- Single pad packed 3 per carton

BACKSIDE VIEW

Bionic knee pad has **nine separate pad components** including four independent 3-dimensional pads for superior fit and comfort.

Knee cap (patella) relief area for improved fit and function.

Multi-directional expansion helps accommodate the natural changes in knee shape that occur between flexion and extension.

East-west motion zone enhances pad flexibility.
