NEW FOR 2009 Model 1575 5-Pad Football Compression Girdle

The 1575 has all of the great protection and compression features that Stromgren has always given the football athlete, but with a new look and design.

Fabric: 25% 280 Denier Spandex, 75% 50 Denier Nylon, Anti-Microbial & Moisture-Wicking

NEW Hip Pad Design:

1. Protects the iliac crest with high compression foam.
2. Is perforated to wick perspiration and heat away from the body.
3. Is Anti-Microbial.
4. Washes and dries better than ever.

NEW Thigh Pad Design:

- Is perforated to wick perspiration and heat away from the body.
- Meets all NFHS specifications.

Stock Colors: White & Gray

Moisture-Lite Football Protective Pad System

Stromgren Supports' new concept in lightweight football protective pads allows perspiration and body heat to move through the pads. By wearing these pads in either a compression girdle, game or practice pant, the football athlete is able to experience the maximum benefit of any moisture-wicking football apparel. All Pads meet NFHS and NCAA requirements

Youth FlexPad™ Football Protective Compression Girdles with Pads

Youth Performance Apparel™

1200LY Long Sleeve

1200SY Short Sleeve

1200NY Sleeveless

1200 Series Warm Weather, moisture-wicking compression shirts provides an athlete with excellent upper body compression, moisture-wicking capabilities that will keep them dry, and the Anti-Microbial treated fabric will help reduce their exposure to staph infections. This garment is an absolute must to wear under football shoulder pads.

Fabric: 85% Nylon/15% Lycra® Spandex

Stock Colors: White, Black, Red, Royal and Navy

Custom Colors: Gray, Maroon, Forest Green, Athletic Gold, Orange.

Stock Sizes: Adult S-4XL. Youth YS-YXL.

Model 1292Y Youth upper torso padded compression shirt.

See page 5 for full description with adult model.

Anti-Microbial Fabric

May assist with the prevention of contacting the MRSA bacteria.

Size chart on page 4.

In addition to providing excellent injury protection to young football players, the Stromgren

FlexPad™ Girdle System allows the young football athlete the same opportunities as a high school or college player.

Practice in shorts, but with hip, tail and thigh pads. Player is protected, cooler, more agile and more reactive to coaching.

1502HTPTC

1502HTPTC

1502HTPTC Youth 5-pocket compression football girdle with a protective cup pocket and permanently attached hip, tail and thigh pads that are perforated to allow perspiration and heat to move away from the body.

Fabric: Moisture-wicking 82% Poly/18% Lycra® Spandex.

Pads: High-impact absorbing, closed cell, EVA foam that is perforated.

Colors: White Only

Sizes: Youth S-YXL

- Anti-Microbial, Poly/Lycra® Spandex moisture-wicking fabric.
- High-impact absorbing, moisture-wicking hip, tail and thigh pads.
- Girdle and pads are washed as a complete unit.
- Compression girdle will hold all pads firmly in place, stabilizing the thigh pads.
- On hot practice days, can be worn with shorts to be more comfortable and cooler.
- All styles have a protective cup pocket.
- Adequately covers and protects the iliac crest to protect from hip pointer injuries and hip bruises.

A young athlete that wears a Stromgren FlexPad™ girdle has the same athletic look as a varsity player, unlike the hot and bulky integrated pant.

FlexPad™ Padded Protective Performance Compression Shirts

(Patent pending)

Model 1228 with rib and back protection

Model 1291 with both torso and cut-out clavicle shoulder padding

Model 1292 with only torso padding

Anti-Microbial Fabric

May assist with the prevention of contacting the MRSA bacteria.

These Performance Apparel™ shirts combine compression and moisture management with perforated EVA foam padding. They are lightweight and comfortable, while providing an athlete with additional torso and AC joint protection.

Ideal for seven-on-seven practice and competition, both 1291/1292 offer sleek, form fitting protection to both the rib and kidney area. Ideal injury prevention shirt for Running Backs, Receivers and Defensive Backs.

Fabric: 85% Nylon/15% Lycra® Spandex with Hydro-Flex® (50 cloth).

Pads: 3/8" thick, perforated, closed cell EVA foam.

Stock Colors: Models 1291/1292 Black and White. Model 1228 Black and Gray.

Custom Colors: Not available.

Stock Sizes: Adults S-3X. Youth M-XL, model 1292Y only.

See size chart on page 4.

Hot and Cold Weather Compression and Moisture-Wicking Performance Apparel™

1200 Series Warm Weather, moisture-wicking compression shirts provide an athlete with excellent upper body compression, moisture-wicking capabilities that will keep them dry, and the Anti-Microbial treated fabric will help reduce their exposure to staph infections. The "Hammy" Hamstring Support System

NEW! Hammy Series Models 1530 & 1530S

The traditional Stromgren 75% Nylon, 25% Lycra compression shorts, but with a neoprene liner in the back of each leg. These products are designed to keep the athlete's hamstring muscle warm during any athletic activity by holding their natural body heat next to the skin.

1530 without straps

1530S with straps

Velcro fastener

Stock Colors: Black & White, 1530S straps are the same color as the compression pant.

Custom Colors: Not Available

Stock Sizes: Adult S-4XL, Youth Not Available

(Patent pending)

The Model 1530S comes standard with two 6" wide, removable straps that can be pulled around the leg to give additional hamstring or groin support. The adjustable straps are held in place with a velcro fastening system.

Ankle Supports

Model 329 Ankle Support

Effective & affordable ankle injury protection that is better than tape.

- The high compression sock portion of the brace applies significant but comfortable compression to both the lateral and deltoid ligaments, to help support them in both an inversion and eversion situation.
 - In addition, the permanently attached heel lock design provides a solid strap on both the medial and lateral sides of the ankle, to assist in stabilizing the tibia to the subtalar joint, to help reduce the potential of a ligament strain.
 - The additional 4" wide medial and lateral straps help to anchor the heel lock straps in place, and create solid support that provides additional resistance in helping to prevent an ankle injury.
 - Fits left or right foot
 - Lauanders great
 - Will not affect shoe sizing
- (Patent pending)

329

Heel Lock

Style #ASW

- Fits both the left or right foot
- Worn over the athlete's shoe
- Has the look of a spat taped ankle, but much more effective
- Comfortable to wear
- Easy to put on
- Can be used over and over
- Manufactured with durable and easy-to-laundry materials
- Breathes and wicks moisture and perspiration
- 3 sizes—available in White or Black

Medium: fits men's shoe size 8 to 9½

Large: fits men's shoe size 10 to 11½

X-Large: fits men's shoe size 12 to 13½

(Patent pending)

L	10¼"–11¼"
XL	11¼"–12¾"

Model 190 and 190SP Knee Protectors

Affordable protection to help reduce both injuries and the severity of an injury to the MCL ligament from lateral pressure. Both the Model 190 and 190SP have been used continuously for 20 years by numerous professional and major college teams.

Designed to absorb and dissipate blows to the lateral side of the knee complex helping to reduce pressure to the MCL. The slotted pivot points allow full range of motion with no restriction to impair the athlete's ability to run or move laterally.

The Lycra® Spandex straps with silicone are designed to hold the brace so that there is no downward migration while being worn.

Model 190 Knee Protector

Made with a larger top paddle for the taller, bigger athlete. Packaged one pair per package with straps. If ordering a single item, specify left or right knee, weight 8 ounces.

Model 190SP Knee Protector

Both top and bottom paddles are the same size. Brace is 2" shorter than the Model 190. Packaged two per package with straps, weight 7 ounces. Fits left or right knee.

Model 190RS Replacement Straps

For Models 190 and 190SP. A set includes one top strap and one bottom strap. One set per package.

Model 190MBR Middle Bar Replacement Kit

Kit comes complete with self-adhesive Velcro® Loop strip and the bar pad with sewn-on Velcro® hook for quick and simple replacement. Each kit comes with instructions.

Warning: Football and other contact sports are inherently dangerous and may result in serious injuries or even death. The Stromgren® Knee Protector is designed to help reduce or prevent knee injuries from lateral blow. However, no brace can prevent all knee injuries and there is no guarantee that knee injuries will be prevented through use of this equipment.

Moisture Management Compression Shirts with Cold/Heat Control Gel Packs

Give your athletes the chance to play either on the hottest or coolest days and be as comfortable as possible.

- The gel packs will cool or heat the body for three-plus hours.
- Hot and cold gel pack is strategically positioned between the wearer's shoulder blades.
- Is not bulky, fits easily under a football shoulder pad.
- Gel packs are easy to insert or remove from shirt pocket.
- Gel packs are reusable and durable.
- Polar Heat helps manage core body temperature.

Fabric content: 85% Nylon/15% Lycra® Spandex.

Stock colors for all styles: Black and White.

Sizes for all styles: Adult S–3XL. See size chart on page 4.

Gel pack can either be frozen or heated in a microwave.

Price includes shirt and 1 Hot/Cold Pack. Additional Hot/Cold Packs are available—Order #CP
