A swimmer in a vibrant, multi-colored geometric patterned Speedo Endurance+ suit is captured mid-dive into a swimming pool. The swimmer's legs are extended forward, and their arms are reaching out, creating a large splash of water. In the background, the pool's edge with lane numbers 5, 6, and 7 is visible, along with lane lines floating in the water.

+ Endurance+

Speedo's Endurance+ is our longest lasting and best selling training suit fabric for a reason. It is chlorine resistant, has superior color retention, and its unique four-way stretch technology maintains a body hugging shape and soft comfort longer than conventional swimwear.

PowerPLUS

Speedo's PowerPLUS fabric brings added power and comfort, while cutting weight and drag. Up to 50% lighter than traditional performance swimwear, PowerPLUS compression technology increases muscle support and elongation for added power and quick recovery. PowerPLUS also resists pilling, fits perfectly, and retains its shape use after use.

New this season + PowerFLEX Eco

With our revolutionary new PowerFLEX Eco fabric, eco-friendly is now performance-enhancing. Made with 78% Econyl®, a Nylon Fiber made of 100% pre and post consumer nylon yarn waste, PowerFLEX Eco retains its shape up to 10X longer than traditional swimwear fabrics. It's resistant to chlorine, sagging and bagging. It also offers 4X the compression of standard fabrics and is twice as strong.

PowerFLEX Eco—good for the environment, even better for swimmers.

Made from 100%
regenerated nylon from
pre and post consumer waste.

**3X
MORE

A photograph of two women in athletic swimwear. The woman on the left is wearing a blue and pink polka-dot bikini top and a solid pink bikini bottom. She is smiling and has her hand on the shoulder of the woman on the right. The woman on the right is wearing a colorful, abstract patterned one-piece swimsuit and is also smiling. The background is a bright, outdoor setting, possibly a beach or poolside.

Accessories

Much like our swimwear, our water accessories are unmatched in performance, fit and feel. So no matter where or why you Dive In – training, fitness or fun those moments in the water are always better with Speedo.

+ Goggles

Your swim is about
to get a whole lot clearer –
not to mention more comfortable,
less restrictive, and much sleeker.

MICAH LAWRENCE
Speed Socket
Mirrored Goggle 68

We have the perfect goggle fit for you

At Speedo, we understand that no two faces are alike, so why should your goggles be? We develop goggles that provide flexibility, comfort, and ease of adjustment. With the new Goggle Optics Fit system Speedo is going a step further and defining great fit and comfort, giving you optimal performance, regardless of your use.

INNER EYE FIT

Sleek, snug, low profile fit.

Get a precision fit with the sleek, snug, low profile inner eye fit. The gasket rests snugly and securely in the eye socket.

MIDDLE EYE FIT

Moderate fit for a wide range of faces.

A comfortable fit for a wide range of faces. The gasket rests within the eye orbital with a less restricting feel.

OUTER EYE FIT

Most generous and universal fit outside the eye socket.

Expand your comfort with the outer eye fit. This gasket shape offers the most universal fit outside your eye socket with the security and reliability of Speedo's other goggles.

MASK FIT

Comfortably surround the entire eye orbit.

Get full coverage and comfort with Speedo's mask fit. Regardless of your activity this skirt shape is sure to provide optimal comfort and security during use.

1 CLEARSIGHT TECHNOLOGY

Traditional curved lens goggles create a certain degree of distortion, which causes eye-fatigue. This unique design splits the lens instead of bending it, offering precise viewing with zero distortion.

CLEARSIGHT TECHNOLOGY

TRADITIONAL CURVED LENS

2 ELASTOMERIC TECHNOLOGY

Goggle seal has grooves designed to expand to the contours of your face, offering a super-comfortable seal. This technology prevents excess pressure building up against the face, and minimizes goggle ring marks.

3 DUAL DENSITY TPR FRAME

Offering superior flexibility.

1 DIMENSION-POLYANT CODE ZERO

A 4-layer construction woven sailing fabric with high tenacity and modulus yarns which is lightweight, quick drying, resistant to tearing, stretching, and mildew formation.

2 AUTO OPEN SYSTEM (AOS)

Specially engineered AOS enables the parachute mouth to automatically open and catch water, without assistance at swim starts and turns.

3 ADJUSTABLE BUOY

Maintains the chute in a fixed position behind the swimmer and tangle-free from the swimmer's kick. Durable Hypalon fabric adjustment clips allow a custom fit for all swimmers' heights.

4 360° ROTATION AND STABILIZATION

Multi-directional swivel clip allows the chute to spin in 360° rotations enabling greater stability and smoother movement, without wobbling or jerking.

6 DURABLE HYDROPHOBIC MESH BELT

Quick-drying, lightweight hydrophobic monofilament mesh provides maximum comfort and superior drainage.

7 INTEGRATED SIDE PANEL SPOILER TECHNOLOGY SYSTEM

Spoilers provide variable resistance to maximize drag intensity, up to approximately 80% vs. swimming without a parachute. Auto locking zipper heads prevent the chute from opening further while swimming.

1 TUBERCLES

These scalloped outer edges create greater surface area for water to pass over which allows the swimmer to pull more water during sprint drills.

2 BLOW VALVES

These lateral edge openings create more resistance and buoyancy.

3 FLOW CHANNELS

These channels help guide water in the proper direction and allow the paddle to move smoothly through the water.

4 THUMB GARAGE

Reinforces proper thumb position and allows greater control on the recovery phase of the stroke.

5 EXTENDED FOREARM SECTION

By creating a stable plane between the hand and forearm, the swimmer reinforces proper hand and elbow positioning.

6 INJECTION MOLDED EVA (IMEVA) FOAM

The swimmer must overcome the natural buoyancy of the IMEVA paddles and aggressively break the water's surface, creating a fierce drive into the water.

7 ADJUSTABLE STRAPS

Soft silicone, and wide enough to keep the paddles securely in place, these straps are easily removable.

Comfort in training

- 1 TUBERCLES**
These scalloped outer edges creates greater surface area for water to pass over, allowing the swimmer to push more water during kicking drills and training sets.
- 2 BLOW VALVES**
Medial edge openings create a valve effect, in which water is captured on the underside and forced through the smaller opening. Thus, more resistance is created on the down-kick.
- 3 FLOW CHANNELS**
Channels on the top and bottom of the fins help guide water in the proper direction which helps rotate the foot into the correct orientation for maximum kick efficiency
- 4 INJECTION MOLDED EVA (IMEVA) FOAM**
IMEVA fins are naturally buoyant, aiding the swimmer with an elevated body position, keeping hips and feet in a more streamline position.
- 5 UNPARALLELED COMFORT**
All unique footwear last features considered when building this product: arch support, more toe space to prevent pinching and cramping, graduated instep for excellent fitting across the mid-foot.
- 6 HEEL STRAPS**
Latticed back heel strap for maximum comfort around the heel bone and Achilles Tendon area. Unique under-heel strap gives extra stability and security at the heel joint.
- 7 INTEGRATED GRAB HOLE**
Incorporated finger hole on top of fin for ease of getting the fin on the foot.
